WONDERFUL POSSIBILITIES.

In Western Kentucky Shown
by Commercial Report.

From Saturday's Paducah News-Democrat we clip the following, which should be of interest to many of our

The basis for the commercial report of Major W. A. Calhoun, consulting engineer for the Kentucky Southwestern, to his company have been almost completed and portions of 't placed in the hands of President Rhodes. While the report will be held confidential until the ful! details are worked out, a number of relative acts were disclosed which indicate that the earning power of such a traction system as that which the company will build will exceed 12 percent in more barren parts of the territory which the road will traverse.

On their way to Hickman the field engineering force has reached Bardwell, Ky., and within a week or ten days Major Calhoun expects to have his report completed. Some of the information that has been gathered by his force will prove surprising even to business men who have tried to keep in touch with the resources of West Kentucky. Among these facts are the following:

The road will traverse 210 miles, running through eleven counties, and will serve fifty cities, towns and neighborhoods with a population of 110,048. The counties have a population of 200,000. The road will comprise three distinct divisions to the northeast, to the south, with a subdivision southeast and southwest, and west to the Mississippi river, then south.

The road, by these divisions, taps the coal and mineral section, the timber sections, the agricultural sections and then the fruit and gardening sec-

in the counties through which the road will run there are 2,127,893 acres or land, with 1,008,200 acres in cultivation, or just about 50 per cent of the area is cultivated.

The export and import tonnage of this territory annually is considerably over four and one-half million tons. The property value of the eleven counties is \$69,572,775, while the banking resources, as given to Major Calhoun by the sworn statements of the banks in the fifty cities and towns, is \$13,999,650.

The other facts which have been secured by Major Calhoun and the detailed report would make a book about twice the size of a popular novel. Of this full report a condensed statement will be made and then the condensed statement will be cut down to a digest. The facts in the digest will be balanced against the details of cost, construction and maintenance as ascertained by the field force now at work, and the earning power of the road ascertained by accurate

Do you remember Sunday, December 31? Of course you do, for it was only a few days ago. But there was one peculiarity about it that you probably did not notice. It was the 53d Sunday. But one year in the last 109 years has had 53 Sundays and the other 108 have had only 52. You will never live to see another year with 53 Sundays. The year of 1912 is a leap year, which accounts for 1911 having 53 Sundays.

PRIMARY ELECTION BILLS ARE PASSED

SIMILAR MEASURES PASS BOTH HOUSES OF THE STATE LEGISLATURE.

site for Governor's Mansion - One Commission That May be Left Out in the Cold-Possibly a New County Formed.

Frankfort.-Following a lively de hate on the floor of the senate, the compulsory primary election bill, introduced by Senator W. V. Eaton. was recommended to the committee on suffrage and elections, of which Senator Eaton is chairman, with instructions for that committee to consider it in connection with a like bill introduced by Senator Webster Helm several weeks ago, and made a report on the two measures. Senator Helm started the fight against the Eaton measure when he moved that his measure, or more properly that of Charlton B. Thompson of the house, introduced in the senate by Mr. Helm, be substituted.

After amending the bill so as to make it not apply in the election of delegates to choose a candidate for president, the house passed hompson compulsory primary election bill by a unanimous vote. bill was discussed at length in the committee of the whole.

The bill that passed the house is almost the same bill as the Eaton ill which passed the senate yesterday, the difference being slight. The passage by both bodies, on the same day, of the primary election bills was an odd coincidence, but means that the nominations for all offices in the state are to be made, in the future, at primary elections.

Working Convicts on Public Roads.

Senato: Bosworth s bill providing . rote of the people on an amendment of the constitution whereby convicts may be worked on the public roads and bridges and providing state aid for countles in road-building to the extent of sending convicts into those counties that are unable to pay for ree labor on roads passed the senate by a vote of 30 to 0.

Senator W. V. Eaton moved to amend by eliminating the word bridges" wherever it occurs in the measure, arguing that convicts hould not be permitted to do bridge ork of any kind, as it would interere with skilled labor. Senator Dowlng offered a second amendment, eliminating the "state aid" feature of oted down.

Governor's Mansion.

\$50,000, the measure providing the appropriation so amended as permit a commission to purchase "near" the capitol grounds inby a vote of 66 to 11. The was taken up as a special rder of business and immediately were offered. One of these limited the price that might be paid for a site for the mansion to \$15,000. This was voted down by a vote of 40 to 23. Sidney G. Clay of Bourbon county offered the amendment, which was adopted, substituting the word "near" "adjacent," explaining that without the amendment the commission ould be compelled to purchase a site immediately adjoining the capitol grounds, and that owners of prop-

erty could charge what they pleased. Commission Worried. The Kentucky Library commission worried, for it may find itself out the cold world without any place call home. The commission has offices on the third floor of the capitol in two rooms which were tended, when the capitol was built, as committee rooms for the senate. The rooms were not in use when the mmission went into office, so they ere put at its disposal. Now the nate has before it a resolution propiding for the vacation of all committee rooms. There are no other ms in the building available for the commission and if the resolution passes as it was offered the commission will be without an office.

Crimp in Curfew Bill.

Representative William A. Perry of Louisville "put a crimp" in Repesentative Robertson's bill creating "curfey" law for cities of the first and second class and the measure was defeated in the house by a vote of 63 to 9.

Gilbert Begins Work.

V. O. Gilbert, who has been an instructor in the Western Kentucky ormal school, at Bowling Green, has begun his duties as a clerk in the office of the superintendent of public instruction.

What was considered a test of trength on the Eaton bill, providing compulsory primary elections we e ballot in the senate on a motion make the measure a special order enators being absent at the time.

Governor McCreary has signed more than 1000 notaries' commissions and there are 1000 more to be signed, this being the session of the legislature at which most of the commissions expire. Some amusing things are found in the applications for the commissions. The wife of one notary, whose husband is dead, wanted to know if the commission went to her for the year yet remaining in which the commission would have been good CONVICTS ON PUBLIC ROADS had her husband lived. She said that in case the commission did not go to her she would like a rebate of the \$2 fee that was paid for the term of four

Many of those writing for commission as notaries make the checks for the \$2 fee payable to Governor Mc-Creary instead of to the assistant secretary of state, and half those asking for commissions write to the governor, when he has nothing to do with the commission, save to sign it.

Anti-Tipping Bill a Law

So amended as to make it a law the moment it is signed by the governor, Representative R. H. Akin's anti-tipping bill passed the house by a vote of 59 to 7. It provides for a fine of from \$10 to \$20 for tipping waiters in hotels, restaurants, barber shops, aboard Pullman cars or other public places.

Mr. Aiken made a speech in support of his measure, enumerating the various annoyances traveling men are subjected to when they fail to hand over the usual tip to a porter or waiter. He said he supposed the socalled drummers would welcome the passage of the bill more than any other class of men. as under the present system of tipping waiters they are virtually "held up" on every occasion.

Increase of Salary.

The senate passed Senator S. G. Marshall's bill providing for the inspection of schools and school funds. increasing the salary of the state superintendent of public instruction \$1,500 a year, enabling him to ap point two school inspectors at salaries of \$1,000 a year each, and inoreasing the amount allowed him annualty for clerk hire in his office \$2,000. Originally the bill increased the salary of the superintendent \$2,500 a year, provided salaries of \$2,000 each for two school inspectors and male provision for \$5,000 extra for clerk hire. After the amendments trimming these salaries had been adopted the bill was passed by a vote of 22 to 14.

Veteran Leader Expected.

The head of the Confederate Vet erans' association, Lieut. Gen. C. J. Walker of South Carolina, will make a visit to Frankfort at an early date, but the object of his trip here is not known. General Walker simply wrote to his friend, Maj. J. N. Womack, teliing him of the prospective visit. Gen. Walker is coming personthe bill. Both amendments were ally to appear before the legislature or a committee of that body, regarding some of the measures which have been introduced affecting Confeder After a stubborn fight, led by S. ato soldiers. It is likely that Gen-Walton Forgy of Todd county, in an eral Walker will be invited to address the legislature and he will be honored as the leader of the Con-

Commissioner of Agriculture J. W. Newman will ask the legislature for money with which to provide a Kentucky exhibit in the New York exposition of the American Land and Immigration congress and at the permanent exposition of the Southern Commercial congress. The latter maintains an exposition in Washing ton to advertise the southern states but Kentucky is not represented.

Will Ask Appropriations.

The house received a telegram from President Moore of the Panama-Pacific International exposition, stating that Governor Gillette of California will be in Kentucky Feb. 22 to 23, Kentuckians in the exposition. Gov- go at a moment's notice to the Mexiernor Gillette will be invited to address the assembly, and it is probable Comman, acting commander of the a bill carrying an appropriation will army post at Fort Leavenworth. Chairman Charlton Thompson that committee explained to the house that the only purpose of such report was to give the bill a chance to be discussed on the floor.

Misses Annie Readenour, Meta Beasley and Omar Readenour and Ed Los Angeles, Cal., Feb. 6.-Capt. Ed. Nipp were the guests of Misses Dovie and Vera Jennison Sunday.

The citizens of Crutchfield were very much excited last Wednesday morning when some one reported that a dead man had been found in a car loaded with lumber, which was standing on a siding. Upon investigation it was found that what looked to be the limbs of a man developed to be only a pair of overalls stuffed with sawdust and crammed burned seriously in the explosion of a into a pair of old delapidated boots. gasoline stove. Her physician said The boots and a portion of the limbs were protruding from underneath the lumber, and owing to the fact that at some recent date the car had been used for transporting fertilizer, the odor issuing from the car readily convinced the casual passerby that it was the body of a man in an advanced stage of decay.

TO TAX BACHELORS.

Representative T. M. Bertram, of Lewis county, believes that Kentucky bachelors should get married or to be taxed. He is a bachelor himself. He says he realizes that he is not doing his duty by the State when he watches the little curly-heads of his Thomas' bill making 15,000 acres of neighborhood running about the countryside when they should be in school. So he proposes a hill to tax all bachelors in Kentucky between the ages of 35 and 60 years, and use the proceeds for the benefit of the common schools.

MANCHU LEADER OPTIMISTIC

Prince Kung Avows Nation Never Will Submit to Rule of Southerners, and Declares Tartars Will Sweep Through Country.

Pekin, Feb. 6.—The oldest empire in the world to-day became the youngest republic. The signed edict, announcing the abdication of Emperor Pu Yi, was in the hands of Premier Yuan out of the windows of the train into Shi Kai, who, it was announced, would the air. make it public as soon as final negotiations had been closed with the pro-Sun Yat Sen.

Prince Kung, who headed the faction which opposed abdication, departed for Manchuria vowing he never would submit to dictation by the southern Celestials, and declaring that history would repeat itself in the near future, when the Tartars from the north again would sweep down upon

Turned Over to Yuan.

The edict of abdication was turned over formally to Yuan after the dow-Prince Chun had prayed fervently at the tombs of their ancestors. The empress tearfully begged the premier not to make the abdication public un til every precaution had been taken to protect the royal family from a threatened outbreak by Manchus, who swore revenge if the terms of the revolutionists were granted.

It was believed generally Monday that the Republicans at Nankin would agree to permit Dr. Sun to act jointly with Yuan in governing China until after a national convention had been held to draft a constitution and elect a president.

The fact that the empress cailed on Yuan to establish a republic when she handed the abdication decree to him was interpreted here to mean that she received assurances that the premier would be elected president. The royal family, despite the charges of treachery it has hurled at Yuan, believes he is the strongest man

You look at the housewife who has a place for her things, and these things in their places, and you find a woman who is systematic in her work; and when she needs anything she can put her hands on it in a moment. She plans and calculates whenever there is to be extra work, extra cooking, extra washing, etc., and she knows before hand just what there is to do and what she wants to do with it. And this same woman, so exact in her doings, gets more time to rest and read and instruct her children in the paths of right and the social duties they owe to all. Ladies, we hope you are of this class, receiving the blessings of your husband, and the praise of all who

As we stood in front of the postoffice yesterday we were forced to hear a part of a conversation between two young ladies. They were talking about a third party and christened her an "old maid." We came as near getting mad as an editor ever does. You know an editor never loses his temper. He still has it all. In almost every circle of our kindred there has been some queen of selfsacrifice to whom jeweled hand was on the old place because of the sense of filial obligation until the health was gone and the attractiveness of personal presence had vanished. Brutal society may call such a one by a nickname, God calls her daughter, and heaven calls her saint.

He who loves beauty and is look ng for it will find it everywhere. And the mother who keeps her enthusiasm alive by working with her children, developing their perception of beauty and love for the beautiful truths divine, will give them a blessed inheritance which will lighten their burden as they grow beyond her sheltering care, and bring more of cheerfulness, and hopefullness, and youthfulness into their lives.

The habit of treating those who are earest and dearest to us with discourtesy and disregard, is one that clouds the sunshine of too many

Is there no other term you can find for her whose love has followed you through every trial, tribulation and misfortune of your life? Has mother through all these years of labor, watching and waiting, been wasting her love on a worthless bunch of clay who, in the rosy dawn of manhood has no other term more fitting than "the old woman" by which to address or speak of his mother?

> Every husband can have good coffee if on some morning, the coffee is a shade too brown to suit your taste, do not scold about it; and, on every other morning when it is delicious, say so. Try this way, and you will find your coffee and everything else, to your taste much oftener and besides you will give the ones you ought to love best the sweetest consciousness that they are doing the work well, giving satisfaction to the one, of all others, they most desire to please—thus inspiring them with renewed energy to strive for the merited reward of kind, appreciative words. And so shall an atmosphere come to pervade the whole house,

IN MEMORIAM.

The angel of death has again been in our midst and laid its icy hand on our sister, Rose Nocnon, who peacefully fell asleep on January 16, 1912, after an illness of about a week from injuries received in falling on the ice. Besides her husband, Joe Noonon, of Hickman, Ky., she leaves a sister, Mrs. M. L. Chenault, of Bardwell, and two brothers, S. O. Stahl of the county, and H. E. Stahl of Oxford, Miss., to mourn the loss of a dear wife and sister together with other relatives and friends.

A preceious one from us has gone, A voice we loved is still; place is vacant in our home Which never can be filled.

God in His wisdom has recalled The boon His love has given, And though the body slumbers here, The soul is safe in Heaven.

It is sad that one we cherished Should be taken from our homes But the joys that do not perish Live in memory alone.

It is hard to break the tender cord When love has bound the heart; It is so hard to speak the words-We must forever part.

Our home was once so happy, With all our loved ones there But God has called to his bright home The one we loved so dear.

We loved her, Oh! so dearly: But the Father loved her more He has given her a happy home, On Canaan's happy shore.

We miss thee, dear Rosa, We miss thee from thy place: We miss thee, Oh! we miss thee, The sunshine from thy face.

Oh, how sadly we do miss her, No earthly tongue can tell; In heaven we hope to meet her For God doeth all things well.

And for our Lord to call us. We will have to wait, Dear Rosa with the golden crown Will meet us at the gate.

And wont there be rejoicing When we meet on that bright shore Then we will be together And sing forever more.

Her sister, NANNIE CHENAULT.

TWO PENTECOSTAL BLESSINGS PASTOR RUSSELL SAYS.

The Later Pentecost Will Be for the World in General-It Will Come Through Messiah's Kingdom Operating Through Israel Restored to Divine Favor-It Will Be Earth's Jubilee of a Thousand Years of Blessed Uplifting and Restitution to All the Willing and Obedient of Adam's Redeemed Race-The First Pentecost Brought Blessing Merely to the Church and Has Nearly Completed Its Intended Work.

Brooklyn, N. Y., - Pastor Russell continues to draw the largest audiences of any preacher in the world to his oral addresses, besides the millions who weekly read the printed reports

of his discourses newspapers of the English speaking world. Today's audience at the Brooklyn Academy of Music was estimated at twenty-six bundred. Of these about three hundred, all men. were on the platform behind the speaker. Late comers failed altogether to gain admittance to the afternoon service. The text was appropriate for Whitsunday, it being St. Peter's explanation of the Pentecostal blessing--"This is that which was spoken by the mouth of the Prophet Joel" (Acts ii, 16-18).

The speaker called attention to the fact that the Prophet Joel mentions two distinct outpourings of the Holy. Spirit. One of these, upon the servants and handmaidens of the Lord, found its fulfilment at Pentecost; and during the more than eighteen centuries since, God's spiritual blessing has been with, not only the Apostles, but all the footstep-followers of Jesus-all of God's servants and handmaldens. St Peter's statement, "This is that which was spoken by the mouth of the Prophet Joel." Pastor Russell said should not be taken to mean that what was witnessed in the upper room on the Day of Pentecost nearly nineteen centuries ago completely fulfilled the Prophet Joel's predictions. None, he said, would dispute that the fulfilment of Joel's prophecy began at Pentecost, with the early Church, and has been in progress of fulfilment during all the

This Church class, or Messiah class, variously referred to in the prophies as well as in the New Testament, the "brethren" of Jesus, and as "sons of God." The world knoweth them not even as it knew not their

Abraham's Natural Seed Next.

This Spiritual Seed of Abraham, all saintly, will constitute the Church of the First-Borns, the Antitype of the Priests and Levites of the Jewish Dispensation. With the completion of this Church, gathered out of all na tions, sects and denominations, Divine favor will return again to the natural seed of Abraham. As the Jew was granted the first privilege or opportunity of becoming the Spiritual Seed of Abraham, be will likewise have the first opportunity to participate in the blessing wh h then will come to the whole world of mankind. "To the Jew first" is the Divine order in respect to both of these blessings. To this agree the words of the Apostle Paul.

The blessing will come through the great Messiah and as a result of the satisfaction He will make for the sins of the whole world, by applying to the race the merits of His sacrifice by which He will seal the New Law Covenant with Israel (Jeremlah xxxi, 31). The great Messiah of glory will be the Mediator of that New Covenant, and the foundation of that Covenant will be the better sacrifices offered by this Mediator, as the Antitypical High Priest (Hebrews 1x, 19-23).

The Peutecostal blessing then to come upon the world will not be upon the terms of sacrificing their earthly rights to attain heavenly blessing and spiritual sonship; on the contrary, its requirements will be a consecration of obedience to the Divine Law; and its reward will be earthly Restitution to the perfection of human nature, and to the enjoyment of all the blessings originally given to Adam and forfeited by his disobedience.

MOUNTAINEER IS AN ADAM

Strange Man in the North Georgia Mountains Has Gone Naked for 61 Years.

Savannah, Ga.-Word comes via the North Georgia mountains of a strange man named John Castellow, who has grown to be 61 years of age, hale, hearty and happy, without ever wearing a stitch of clothing and without ever using a single word but the monosyllable "Gee!" Says a traveler from Harris, describing the marvelous

"He lives four miles east of Windsor, in Bertle county, North Carolina, and his health is perfect. He has not missed a meal in fifty years.

When I visited him he was entirely nude. He is the strongest man I ever saw. His body is normal and well shaped, but his strength is prodigious. He can break a double plowline as easily as if it were a cotton cord. He is gentle and has never been known to hurt a living soul intentionally. He cannot speak a word except the one monosyllable 'Gee,' which he uses in various intonations to express all his desires and emo-

Willimantic, Conn.—"For five years I suffered untold agony from female troubles causing backache, irregularities, dizziness, and nervous prostration. It was impossible for me to walk up stairs without stopping on the way. I was all run down in every way.

"I tried three doctors and each told me something different. I received no benefit from any of them but seemed to suffer more. The last doctor said it was no use for me to take anything as nothing would restore me to health again. So I began taking Lydia E. Pinkham's Vegetable Compound to see what it would do, and by taking seven bottles of the Compound and other treatment you advised, I am restored to my natural health."—Mrs. Erra Donovan, 702 Main Street, Willimantic, Conn.
